

Service technician. Medical business – Nordic

Nordic Service Group expands frequently our flexibility and our customer portfolio. Therefore we are looking for new service technicians. Now primarily in Denmark and Sweden.

FIELD ELEKTRONIC-TECHNICIAN OR THE LIKE to perform preventive maintenance, repair and installations of laboratory or hospital equipment. Some repairs could also be in our workshop. The tasks will primarily be on electrical and mechanical instruments, which are controlled by a PC. Electrical debugging will often be on module level.

TECHNICIAN WITH A SENSE OF SERVICE AND QUALITY.

You are service minded and have good communications skills both in your native language and in English – even in busy situations. You must be careful with your job and flexible regarding working hours, and be able to plan your work.

SELF-CONTAINED JOB

You will be a part our service team of 28 employees. We will offer you a varied and interesting job in a non smoking environment, were we emphasise that it is important that we feel good together. The salary is fixed with a travel supplement and is set from your qualification. The job includes a yellow plate company service car. Experience from the business is not a requirement, as there will be a thorough training on the instruments both in our workshop and at our customers training facilities.

You like to travel and that most days are not the same, because a large part of the work is in the field on customer site.

APPLICATION

Please forward your application with your c.v. to the below address attention Service manager Brian Ipsen.
