Nordic Service Group is an independent service organisation with headquarters in Denmark, and subsidiaries in Sweden, Norway and Finland to secure availability and immediate Service.

Nordic Service Group is the market leader within our field. Our goal is to be the preferred partner for our customers, and we are thriving through dialogue, reliability and quality of work.

If you choose Nordic Service Group you will get a comprehensive, powerful and flexible service organisation covering all Nordic nations.

Nordic Service Group is based on a competent team of technicians, working committed and engaged with installation, repairs and maintenance of equipment and instruments for hospitals, laboratories and the pharma industry.

Since the start in 1991, we have been centered on our core business and to deliver more than expected.

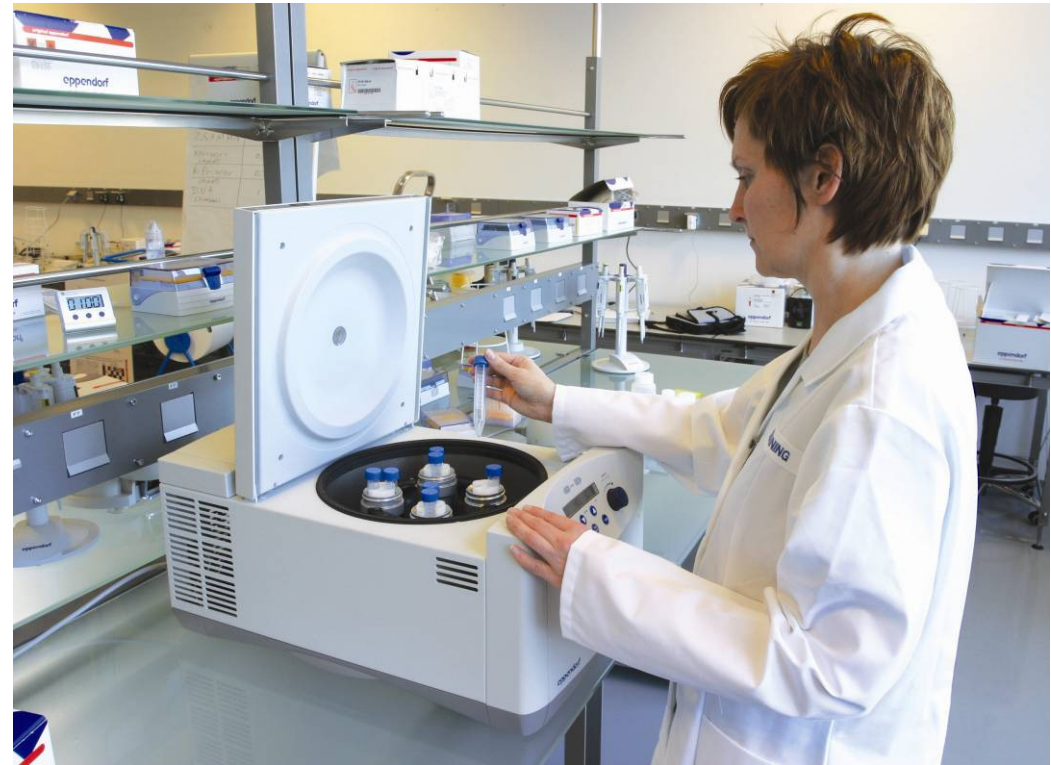

Good service, creates good relations.

Kind regards

Jesper Jørgensen,
Adm. Direktør

NORDIC SERVICE GROUP

CENTRIFUGES

- Service
- Maintenance

a powerful relationship

NORDIC SERVICE GROUP

NORDIC SERVICE GROUP

According to the danish working environment legislation section 776 of November 25th 1991, all centrifuges with an effect over 1500 joule, will have to be examined by a certified technician at least one time a year.

You should choose NORDIC SERVICE GROUP because:

- We perform inspections on-site
- We perform inspections on all types of centrifuges
- We deliver swap equipment
- We are nation-wide
- Every inspection is carried out by calibrated test-equipment
- We are certified servicepartner for:

Prices:

- Centrifuges eur. 229,- a piece
- Cooling Centrifuges eur. 286,- a piece

Discount:

Inspection on more than 10 centrifuges gives discount.

Prices are pr. 1. november 2009 and excl. vat. Prices includes salary and documentation, all travelling expenses, except to offshore islands.

SERVICECONTRACT ON CENTRIFUGES

Inspection will be carried out due to servicemanual from manufacturer and includes:

- Control of functionality
- Visuel inspection internal and external
- Inspection of locking and brake mechanism
- Calibration and eventual adjustment
- Proper cleaning on equipment (max 30. minutes)
- Transportation round trip, one time pr. inspection-site
- Salary under inspection
- Technical tools and devises

If inspections shows faults or defects on equipment or accessory, customer will be informed before an eventually repair.

The following are not within the servicecontract:

- Swap equipment i forbindelse med serviceeftersyn eller reparation.
- Salary on eventually repairs.
- Spareparts.

Equipment shall be accessible under maintenance

Prices will be adjusted yearly, end of year and added an indexation of 2 %
